

HOW TO PLAY WEREWOLF

Take a card, look at it, and hide it from others

Werewolves kill at night. Who dies is revealed in the day. The village must talk to decide what to do next.

Werewolf:
Card: Jack
Goal: Kill the seer before they identify you

Villager:
Card: Number
Goal: Kill the werewolves before you're eaten

Seer:
Card: Queen
Goal: Figure out who the werewolves are without giving yourself away.

Night

Everyone closes their eyes. Werewolves will be told to open their eyes, and silently decide who to kill. The seer then opens their eyes and points to one person to learn if they are a villager or a werewolf.

Day

Everyone opens their eyes. The village learns who was eaten in the night. That person is now dead and can no longer participate.

Talk

The village must decide who they believe is a werewolf and hit them with a silver bullet. Remember, werewolves are part of the village too; be careful who you trust.

Script

Night: It is now nighttime. Everyone close your eyes and hum a lullaby to yourself until morning.

Werewolf: open your eyes and choose a victim for tonight's feast.

Tonight's victim has been chosen. Werewolf, close your eyes.

Seer, open your eyes and point to the person whose soul you want to see. (Hold up the werewolf or villager card)

Day: It is now daytime. Everyone open your eyes.

Now it's time to deliberate and try to figure out who the werewolf is. Talk amongst yourselves...Now it's time to vote for whom the group thinks the werewolf is. Majority rules.

This person has been declared the werewolf and will be shot with a silver bullet.

- If Villager: The village has killed an innocent villager. The werewolf will come for a new victim tonight.
- If Seer: The village has killed the seer, the one person who knew the truth. The werewolf will come for a new victim tonight.
- If Werewolf: The village has killed a werewolf. The town is now safe from its horrible reign. Sleep soundly knowing you are safe tonight. The end.

The game is over when when either all the villagers or all the werewolves have been eliminated
